

Figure S1. CircUSP36 is highly expressed in ox-LDL-exposed HUVECs in a dose- or time-dependent manner. (A) HUVECs were exposed to 0, 40, 60, 80 or 100 $\mu\text{g/ml}$ ox-LDL for 24 h, and the expression of circUSP36 in treated cells was detected by RT-qPCR (n=3). (B) HUVECs were exposed to 60 $\mu\text{g/ml}$ ox-LDL for 0, 6, 12, 24 or 48 h, and the expression of circUSP36 in treated cells was detected by RT-qPCR (n=3). * $P < 0.05$ vs. respective control. HUVECs, human umbilical vascular endothelial cells; ox-LDL, oxidized low-density lipoprotein.
