

Figure S1. Apoptosis rate, the protein expression of P-gp and GST- π in C-33A/DDP and CaSKI/DDP cells. (A) Apoptosis rate of C-33A/DDP and CaSKI/DDP cells. (B) Protein expression of P-gp and GST- π in C-33A/DDP and CaSKI/DDP cells. miR, microRNA; CC, cervical carcinoma; DDP, cisplatin; P-gp, anti-P-glycoprotein; GST- π , anti-glutathione S-transferase- π ; PI, propidium iodide; ns, not significant.
