

Figure S1. Expression of PRL-3 in LoVo and HT29 cell lines. \*\*P<0.01 vs. respective control. NC, negative control; LoVo-P, LoVo PRL-3 overexpression; HT29-P, HT29 PRL-3 knockdown; PRL-3, phosphatase of regenerating liver-3.

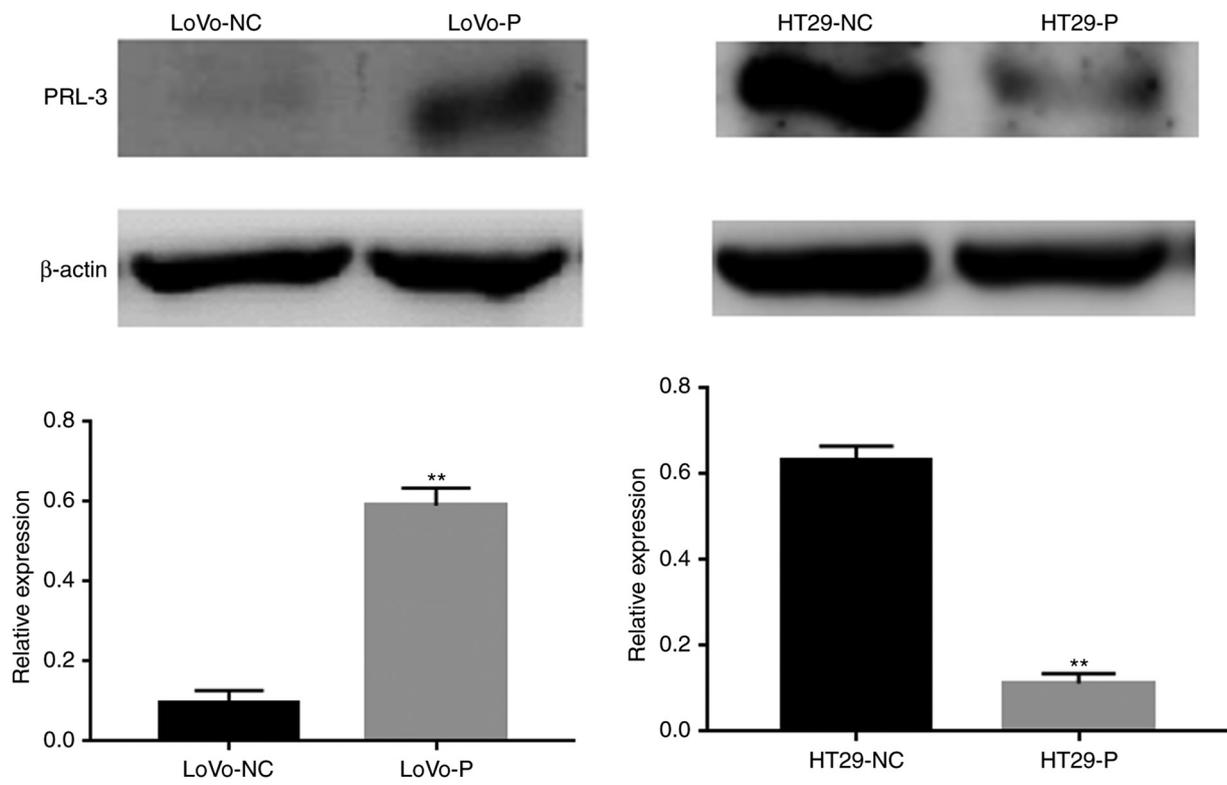

Figure S2. Detection of CD68 as marker of tumor-associated macrophages in xenografts. NC, negative control; LoVo-P, LoVo PRL-3 overexpression; HT29-P, HT29 PRL-3 knockdown; PRL-3, phosphatase of regenerating liver-3.
