About Spandidos Publications

Spandidos Publications was founded in 1992 and has developed into a leading publishing group in the biomedical sciences field. We currently publish eight journals: International Journal of Molecular Medicine, International Journal of Oncology, Molecular Medicine Reports, Oncology Reports, Experimental and Therapeutic Medicine, Oncology Letters, Biomedical Reports and Molecular and Clinical Oncology.

All journals published by Spandidos Publications maintain the highest standards of quality and the members of their Editorial Boards are world-renowned scientists. The company has offices based in Athens and London and receives high quality submissions from authors worldwide, including Europe, the Americas Asia, Africa and Australia.

Our main aim is to facilitate scientific communication in a clear, concise and objective manner, while striving to provide prompt publication of original works of high quality.

The group has held more than 20 conferences in the fields of oncology and molecular medicine. Our conferences are organised on an annual basis with the aim of encouraging scientific communication and clarity, and to aid the development of international collaboration between established and expanding research groups around the world.

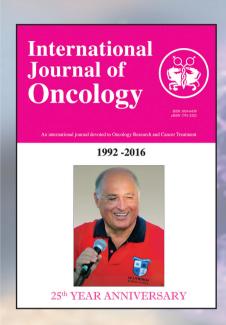

Spandidos Publications is a member of several industry organizations, including the Association of Learned and Professional Society Publishers (ALPSP) and the Publishers International Linking Association (CrossRef). We are in the process of becoming a member of the Counting Online Usage of Networked Electronic Resources (COUNTER) and the UK Serial Group.

Spandidos Publications is also a participanting member in the LOCKSS (Lots of Copies Keep Stuff Safe) initiative. LOCKSS will enable any library to maintain their own archive of content from Spandidos Publications and other publishers, with minimal technical effort.

Reasons to publish with Spandidos Publications

- High quality in-house copyediting to ensure high standards of communication
- Constructive, efficient and rapid peer review
- Rapid publication
- Included in all major bibliographic databases
- High visibility with 3,332,163 page views in 2017 and international readership in relevant fields of research
- Spandidos Publications makes articles freely available 12 month after the publication
- Immediate open access is also available subject to an article-processing charge

International Journal of Oncology

Print ISSN: 1019-6439 Online ISSN: 1791-2423 Volume: 52 and 53 (2018)

Published monthly

Web of Science Impact Factor (2017): 3.333

Scopus CiteScore (2017): 3.36

Date Established: 1992

Ranked #31/222 (total number of cites) amongst journals classified in the oncology subject category (Web of Science)

Aims and scope

The International Journal of Oncology provides an international forum for the publication of the latest, cutting-edge research in the broad area of oncology and cancer treatment. The journal accepts original high quality works and reviews on all aspects of oncology research including carcinogenesis, metastasis, epidemiology, chemotherapy and viral oncology.

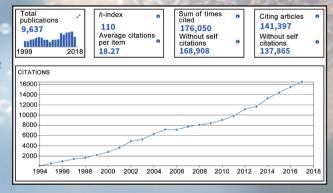

Through fair and efficient peer review, the journal is dedicated to publishing top tier research in the field, offering authors rapid publication and high standards of copy-editing and production.

The International Journal of Oncology is published on a monthly basis in both print and early online.

Oncology Reports

Print ISSN: 1021-335X Online ISSN: 1791-2431

Volume: 39 and 40 (2018)

Published monthly

Web of Science Impact Factor (2017): 2.976

Scopus CiteScore (2017): 3.03

Date Established: 1994

Ranked #29/222 (total number of cites) amongst journals classified in the oncology subject category (Web of Science)

Aims and scope

Oncology Reports is a monthly, peer-reviewed journal devoted to the publication of high quality original studies and reviews concerning a broad and comprehensive view of fundamental and applied research in oncology, focusing on carcinogenesis, metastasis and epidemiology.

The journal is published in both print and electronic format.

ONCOLOGY REPORTS

International Journal of Molecular Medicine

Print ISSN: 1107-3756 **Online ISSN: 1791-244X** Volume: 41 and 42 (2018)

Published monthly

Web of Science Impact Factor (2017): 2.784

Scopus CiteScore (2017): 2.84

Date Established: 1998

Ranked #21/133 (total number of cites) amongst journals classified in the medicine, research and experimental subject category (Web of Science)

Aims and scope

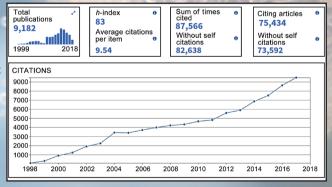

The International Journal of Molecular Medicine is a monthly, peer-reviewed journal devoted to the publication of high quality studies of molecular mechanisms of human disease. The journal welcomes research on all aspects of molecular and clinical research, ranging from biochemistry to immunology, pathology, genetics, human genomics, microbiology, molecular pathogenesis, molecular cardiology, molecular surgery and molecular psychology.

The International Journal of Molecular Medicine aims to provide an insight for developing molecular tools and identifying molecular targets for the diagnosis and treatment of a diverse number of human diseases to researchers within the community.

Molecular Medicine Reports

Print ISSN: 1791-2997

Online ISSN: 1791-3004

Volume: 17 and 18 (2018)

Published monthly

Web of Science Impact Factor (2017): 1.922

Scopus CiteScore (2017): 1.99

Date Established: 2008

Ranked #13/133 (total number of cites) amongst journals classified in the medicine, research and experimental subject category (Web of Science)

Aims and scope

Molecular Medicine Reports is a monthly, peer-reviewed journal that includes studies devoted to molecular medicine, underscoring aspects including pharmacology, neurosciences, molecular cardiology and molecular surgery.

In vitro and in vivo studies on experimental model systems pertaining to mechanisms of a diversity of diseases offer researchers the tools and knowledge with which to aid in the diagnosis and treatment of human diseases.

MOLECULAR MEDICINE REPORTS

Experimental and Therapeutic Medicine

Print ISSN: 1792-0981 Online ISSN: 1792-1015 Volume: 15 and 16 (2018)

Published monthly

Web of Science Impact Factor (2017): 1.410

Scopus CiteScore (2017): 1.50

Date Established: 2010

Ranked #42/133 (total number of cites) amongst journals classified in the medicine, research and experimental subject category (Web of Science)

Aims and scope

Experimental and Therapeutic Medicine aims to provide an expedient publication in both print and electronic format, of studies relating to biology, gene therapy, infectious disease, microbiology, molecular cardiology and molecular surgery. The journal welcomes studies pertaining to all aspects of molecular medicine, and studies relating to in vitro or in vivo experimental model systems relevant to the mechanisms of the disease are also included.

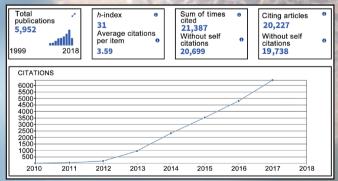

All materials submitted to this journal undergo the appropriate review via referees who are experts in this field. All materials submitted follow international guidelines with regard to approval of experiments on humans and animals.

EXPERIMENTAL AND THERAPEUTIC MEDICINE

WEB OF SCIENCE 28/06/2018

Oncology Letters

Print ISSN: 1792-1074

Online ISSN: 1792-1082

Volume: 15 and 16 (2018)

Published monthly

Web of Science Impact Factor (2017): 1.664

Scopus CiteScore (2017): 1.69

Date Established: 2010

Ranked #49/222 (total number of cites) amongst journals classified in the oncology subject category (Web of Science)

Aims and scope

Oncology Letters is a monthly, peer-reviewed journal, available in print and online, that focuses on all aspects of clinical oncology, as well as *in vitro* and *in vivo* experimental model systems relevant to the mechanisms of the disease.

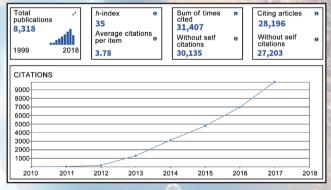

The principal aim of Oncology Letters is to provide the prompt publication of original studies of high quality that pertain to clinical oncology, chemotherapy, oncogenes, carcinogenesis, metastasis, epidemiology and viral oncology in the form of original research, reviews and case reports.

ONCOLOGY LETTERS

Molecular and Clinical Oncology

Print ISSN: 2049-9450

Online ISSN: 2049-9469

Volume: 8 and 9 (2018)

Published monthly

Scopus CiteScore (2017): 1.23

Date Established: 2013

Aims and scope

Molecular and Clinical Oncology is a new, monthly, peer-reviewed journal, which accepts molecular studies relevant to the mechanisms of disease and all aspects of oncology research, including clinical oncology, chemotherapy, oncogenes, metastasis and viral oncology. The journal provides a home for original research, case reports and review articles.

BIOMEDICAL REPORTS

Article Processing Charges

Accepted manuscripts will be published on the understanding that the author(s) will pay the page charges as indicated on submission. An order form with payment details is provided at the proofs stage of manuscript submission. A PDF of the final article is provided free of charge upon publication.

Article Processing Charges: After final acceptance of manuscripts, authors can choose between one of the two following options to cover for publications costs.

Option 1: The publication charge is calculated based on the number of pages and color figures of the final accepted manuscript. All Spandidos Publications journals have the same fees for option 1.

	EUR	GBP	USD
Basic charge (total amount for up to 5 pages)	€250	£210	\$325
Each additional page	€110	£90	\$160
Reproduction in color, per page	€390	£310	\$520

Color figures should only be submitted if intended for publication. Fees for color reproduction are calculated based on the figures at the time of manuscript acceptance. Figures may not be changed to black and white once a manuscript has been accepted.

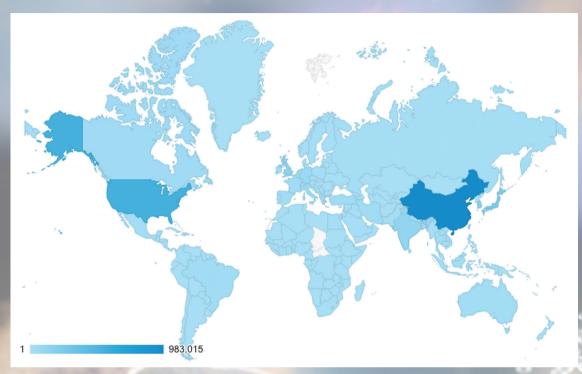

Option 2: A fixed charge is applied irrespective of the total number of pages or color figures. In addition, the articles are made immediately available as open access and appear online at PubMed, PubMed Central and Europe PMC. This option complies with a number of funding bodies (see open access section online).

	EUR	GBP	USD
International Journal of Oncology	€2,500	1	\$2,600
Oncology Reports	€2,300		\$2,400
International Journal of Molecular Medicine	€1,390	£1,200	\$1,860
Molecular Medicine Reports	€1,090	£940	\$1,450
Oncology Letters	€890	£770	\$1,190
Experimental and Therapeutic Medicine	€890	£770	\$1,190
Molecular and Clinical Oncology	€890	£770	\$1,190
Biomedical Reports	€890	£770	\$1,190

Gold Membership Subscription Service

Spandidos Publications Gold is a new resource that offers all online journal content in one complete package.

This includes:

International Journal of Oncology	16 July 19 19 19 19 19 19 19 19 19 19 19 19 19
Oncology Reports	
International Journal of Molecular Medicine	
Molecular Medicine Reports	Price on application
Oncology Letters	Email: subscriptions@spandidos-publications.com
Experimental and Therapeutic Medicine	
Molecular and Clinical Oncology	
Biomedical Reports	

All customers and institutions with Gold membership will receive a set number of voucher codes, allowing them to publish Spandidos Publications manuscripts via Open Access, free of charge.

For example, an institute with a Gold membership subscription worth \$11,190 will be allocated 10 Open Access vouchers (one voucher is worth \$1,190). Each voucher is equivalent to 1 Open Access article, in any of our journals.

Open Access, providing unrestricted access to peer-reviewed research, is a movement that is growing in the scholarly scientific community. However, we recognize that researchers often do not have sufficient funding to pay for this directly. This new voucher scheme from Spandidos Publications allows researchers to enjoy the benefits of Open Access – improving manuscript and author visibility to the scientific community, as well as enhancing the reputation of the institution and library, without paying the normal publication fees.

Spandidos Publications, therefore, is proud to announce that it will follow this new movement towards Gold Open Access. We hope you will take full advantage of this new scheme available and any due voucher codes.

How it works:

The Spandidos Publications Gold Open Access scheme is available to any researcher at an institution with a Gold subscription to our journal series. The number of articles that can be published via this method will depend on the number of vouchers allocated, which depends on the cost and level of the subscription. Each voucher is equivalent to one article, in any of our journals.

Authors should submit their manuscript in the usual way. If a paper is accepted, following the usual requirements to publish in one of our journals, the author must ask their nominated representative at their institution to provide them with a gold voucher code. This voucher may then be redeemed with Spandidos Publications. Voucher codes cannot be requested until the submitted manuscript has been accepted for publication. The nominated representative for the institution holding the Gold Open Access account will be overall responsible for the distribution of the voucher codes to authors.
