lncRNA KCNQ1OT1 promotes proliferation and invasion of glioma cells by targeting the miR-375/YAP pathway

PANFENG DING, BO LIANG, JIXIN SHOU and XINJUN WANG

Int J Mol Med 46: 1983-1992, 2020; DOI: 10.3892/ijmm.2020.4760

Following the publication of this paper, it was drawn to the Editors' attention by a concerned reader that certain of the EdU incorporation assay data shown in Fig. 2C were strikingly similar to data appearing in different form in another article by different authors. Owing to the fact that the contentious data in the above article had already been published elsewhere prior to its submission to *International Journal of Molecular Medicine*, the Editor has decided that this paper should be retracted from the Journal. After having been in contact with the authors, they agreed with the decision to retract the paper. The Editor apologizes to the readership for any inconvenience caused.
