Dr Anita Thyagarajan-Sahu was omitted from our manuscript as a co-author. In this erratum we acknowledge her participation as a co-author in the published study. Dr Sahu was actively involved in the original evaluation of the biological activity of *Poria cocos* extracts and cell cycle analysis. The omission of Dr Sahu as a co-author was an unwanted error, occurring after she left Cancer Research Laboratory at IU Health, and this was the reason why Dr Sahu did not read the submitted manuscript. All authors agree to add Dr Sahu as a co-author.
