S100A8 facilitates cholangiocarcinoma metastasis via upregulation of VEGF through TLR4/NF- κ B pathway activation

SHUGUANG PAN, YING HU, MENGJIA HU, YANG XU, MO CHEN, CHWANGHONG DU, JINCHI CUI, PING ZHENG, JIEJUAN LAI, YUJUN ZHANG, JIE BAI, PENG JIANG, JIN ZHU, YU HE and JUNPING WANG

Int J Oncol 56: 101-112, 2020; DOI: 10.3892/ijo.2019.4907

Subsequently to the publication of the above article, the authors have realized that, in the Abstract on p. 101, line 12 and in the fourth sentence, “S100A8” was erroneously written as “S100A6”. The sentence in question should have read as follows: “Furthermore, both *in vitro* and *in vivo* experiments revealed that overexpression of **S100A8** promoted, while S100A8 knockdown attenuated, the migration and metastasis of CCA cells.”

The authors regret that this error was not corrected before the article went to print, and apologize for any inconvenience caused.
