MiR-132 inhibits cell proliferation, invasion and migration of hepatocellular carcinoma by targeting PIK3R3

KAI LIU, XINGLIANG LI, YUCHEN CAO, YUANYUAN GE, JIANMENG WANG and BO SHI

Int J Oncol 47: 1585-1593, 2015; DOI: 10.3892/ijo.2015.3112

Following the publication of this paper, it was drawn to the Editors' attention by a concerned reader that the data shown in Figs. 2C and 3A bore unexpected similarities to data appearing in different form in other articles by different authors. Owing to the fact that some of the contentious data in the above article had already been published elsewhere, or were already under consideration for publication, prior to its submission to *International Journal of Oncology*, the Editor has decided that this paper should be retracted from the Journal. After having been in contact with the authors, they agreed with the decision to retract the paper. The Editor apologizes to the readership for any inconvenience caused.
