

RETRACTION

DOI: 10.3892/mmr.2018.9374

Combined treatment with extracorporeal shock-wave therapy and bone marrow mesenchymal stem cell transplantation improves bone repair in a rabbit model of bone nonunion

TAO FAN, GUOZHI HUANG, WEN WU, RONG GUO and QING ZENG

Mol Med Rep 17: 1326-1332, 2018; DOI: 10.3892/mmr.2017.7984

The authors of the above article wish to retract it on account of two reasons: First, the authors have experienced irreconcilable difficulties in deciding upon the suitable order of the authors in the author list. Secondly, due to the authors' negligence, the graph featured in Fig. 1 on p. 1328 does not match with the textual description, and the authors intend to rectify this discrepancy by performing further experiments.

The authors regret any inconvenience that this retraction has caused.
