Screening and identification of a peptide specifically targeted to NCI-H1299 cells from a phage display peptide library

Xiangan Tu, Lianquan Zang, Daiyan Lan and Weican Liang

Molecular Medicine Reports 2: 1005-1010, 2009

Due to an assessment indicating that the above article is excessively similar to Cancer Lett 281: 64-70, 2009, we requested that the paper be retracted. We agree with the assessment, and take full responsibility; however, we wish to state that the main results are completely different in the two papers.
