Silencing of the long non-coding RNA GHET1 inhibits cell proliferation and migration of renal cell carcinoma through epithelial-mesenchymal transitionWENJIE XIE, XIN LIU, QIANG CHEN, MING MA, XIAORONG YANG, BINBIN GONG, TING SUN AND JIE CHEN¹

Oncol Lett 17: 3173-3180, 2019; DOI: 10.3892/ol.2019.9967

After the publication of the above paper, the authors requested a change in the order of a pair of the authors listed on the paper; essentially, the placement of the second- and third-listed authors on the paper has been reversed, and so Xin Liu is now the second named author, and Qiang Chen is the third author. Furthermore, for the record, the authors who contributed equally to this study are now listed as Wenjie Xie and Xin Liu. Therefore, the author and affiliation information for this paper is now as follows:

WENJIE XIE^{1*}, XIN LIU^{2*}, QIANG CHEN¹, MING MA¹, XIAORONG YANG¹, BINBIN GONG¹, TING SUN¹ and JIE CHEN¹

¹Department of Urology, The First Affiliated Hospital of Nanchang University; ²Department of Blood Transfusion, Jiangxi Provincial Children's Hospital, Nanchang, Jiangxi 330000, P.R. China

*Contributed equally

All authors agree to these proposed changes to the affiliations. The authors regret that these changes were not made prior to the publication of their paper, and apologize for any inconvenience caused.
