After the publication of the above article, the authors have realized that Figs. 8 and 9 in their paper were presented incorrectly; essentially, the red lines plotted to show the nodular data in these Figures should not have been drawn to meet the x axis. The corrected versions of Figs. 8 and 9 are shown opposite. Note that the revisions made to these figures do not affect the overall conclusions reported in the paper. The authors apologize to the Editor of *Oncology Letters* and to the readership for any inconvenience caused.
