MicroRNA-599 suppresses glioma progression by targeting RAB27B

YU JIANG, XIAOHUI WANG, JI ZHANG and RENCHUN LAI

Oncol Lett 16: 1243-1252, 2018; DOI: 10.3892/ol.2018.8727

Following the publication of this paper, it was drawn to the Editors' attention by a concerned reader that certain of the scratch-wound assay data shown in Fig. 4D were strikingly similar to data appearing in different form in other articles by different authors. Owing to the fact that the contentious data in the above article had already been published elsewhere, or were already under consideration for publication, prior to its submission to *Oncology Letters*, the Editor has decided that this paper should be retracted from the Journal. After having been in contact with the authors, they agreed with the decision to retract the paper. The Editor apologizes to the readership for any inconvenience caused.
