miR-133b induces chemoresistance of osteosarcoma cells to cisplatin treatment by promoting cell death, migration and invasion

YONGGEN ZOU, JIEXIANG YANG, JIAN WU, CHENG LUO and YUANSHUAI HUANG

Oncol Lett 15: 1097-1102, 2018; DOI: 10.3892/ol.2017.7432

Following the publication of this paper, it was drawn to the Editor's attention by a concerned reader that certain of the Transwell cell invasion data shown in Fig. 6 on p. 1101 were strikingly similar to data that had appeared in different form in different articles written by different authors that either had already been published, or were under consideration for publication at around the same time.

Owing to the fact that some of the data in the above article had already been published prior to its submission to *Oncology Letters*, the Editor has decided that this paper should be retracted from the Journal. The authors were asked for an explanation to account for these concerns, but the Editorial Office did not receive a reply. The Editor apologizes to the readership for any inconvenience caused.
