Intratumoral injection of PKR shRNA expressing plasmid inhibits B16-F10 melanoma growth

NAYARA DELGADO ANDRÉ, VIVIANE ALINE OLIVEIRA SILVA, MARIA ANGELICA EHARA WATANABE and FERNANDO LUIZ DE LUCCA

Oncol Rep 32: 2267-2273, 2014; DOI: 10.3892/or.2014.3410

It has been brought to our attention that there was an important omission of the word ‘shRNA’, which should have been featured in a couple of places in the above article. The authors incorrectly claimed that the RNA-dependent protein kinase (PKR) acts as a tumor suppressor; in fact, it is the PKR shRNA that would fulfil the role of being a tumor suppressor. Therefore, the text in the Abstract on p. 2267, line 14, should have read “...these findings suggested that PKR shRNA acts as a tumor suppressor”; likewise, on p. 2272, towards the end of the final sentence of the second paragraph of the Discussion, the text should have read “The results show that PKR silencing inhibits tumor growth, suggesting that PKR shRNA acts as a tumor suppressor...”.

The authors regret that this error was not corrected before the article went to print, and they thank the reader concerned for drawing the matter to our attention.
