Oncol Rep 43: 1630-1640, 2020; DOI: 10.3892/or.2020.7539

Following the publication of the above paper, an interested reader drew to the authors' attention that, in Fig. 5 on p. 1637, the data panel selected to represent the 'Ishikawa/+BMI-1 siRNA/Invasion' experiment in Fig. 5A appeared to overlap with the data shown for the 'JEC/+BMI-1 siRNA/Migration' panel in Fig. 5C, such that they were potentially derived from the same original source.

The authors have re-examined their original data, and realize that the data panel selected for the 'Ishikawa/+BMI-1 siRNA/Invasion' experiment in Fig. 5A was inadvertently selected incorrectly. The corrected version of Fig. 5, showing the correct data for the 'Ishikawa/+BMI-1 siRNA/Invasion' experiment in Fig. 5A, is shown below. Note that this error did not affect the overall conclusions reported in the study. The authors are grateful to the Editor of *Oncology Reports* for granting them the opportunity to publish this Corrigendum; furthermore, they apologize for any inconvenience caused to the readership of the Journal.
