

Figure S1. Analysis of transfection efficacy. (A) Relative MALAT1 expression levels in the si-Ctrl- and si-MALAT1-transfected Huh7 and HepG2 cells were analyzed by RT-qPCR. (B) Relative miR-375 expression levels in Huh7 cells following transfection with miR-NC and miR-375 mimics or inhibitors were analyzed by RT-qPCR. (C) YAP1 expression levels in Huh7 cells transfected with oeYAP1 and oeCtrl were analyzed by Western blotting. Data are presented as the mean \pm SD. ** $P < 0.01$; $n = 3$. YAP1, Yes-associated protein 1; MALAT1, metastasis-associated lung adenocarcinoma transcript 1; RT-qPCR, reverse transcription-quantitative PCR; miR, microRNA; NC, negative control; si-, small interfering RNA; oe, overexpression plasmid; Ctrl, control.
