

Figure S1. Reverse transcription-quantitative PCR verified that the expression of ITGA3 was significantly increased in the pcDNA-ITGA3 group at the mRNA level. **P<0.01. ITGA3, integrin $\alpha 3\beta 1$; NC, negative control.

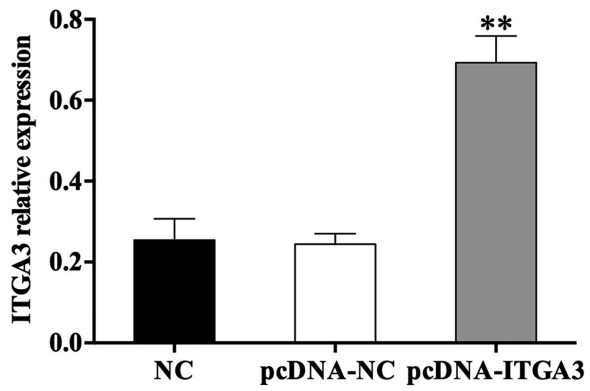

Figure S2. Western blotting verified that the expression of ITGA3 was significantly increased in the pcDNA-ITGA3 group at the protein level. ITGA3, integrin $\alpha3\beta1$; NC, negative control.
