

Figure S1. Expression of miR-532-3p in SH-SY5Y cells. +miR-532-3P mimics, cells treated with miR-532-3P mimic (50 μ M); +NC miRNA, cells with negative control miRNA (50 μ M). Data are presented as the mean \pm standard deviation. ***P<0.001 vs. control. NC, negative control; miR/miRNA, microRNA.
