

Figure S1. Effects of miR-197-3p inhibitor on OS cell proliferation, migration and invasion. (A) The expression of miR-197-3p was decreased by transfection of miR-197-3p inhibitor in MG-63 and U2OS cells. (B) CCK-8 assay was applied to assess the effect of miR-197-3p inhibitor on OS cell proliferation. (C and D) Cell migration and invasion were detected by Transwell assays in miR-197-3p inhibitor-transfected MG-63 and U2OS cells. *P<0.05 vs. NC inhibitor.

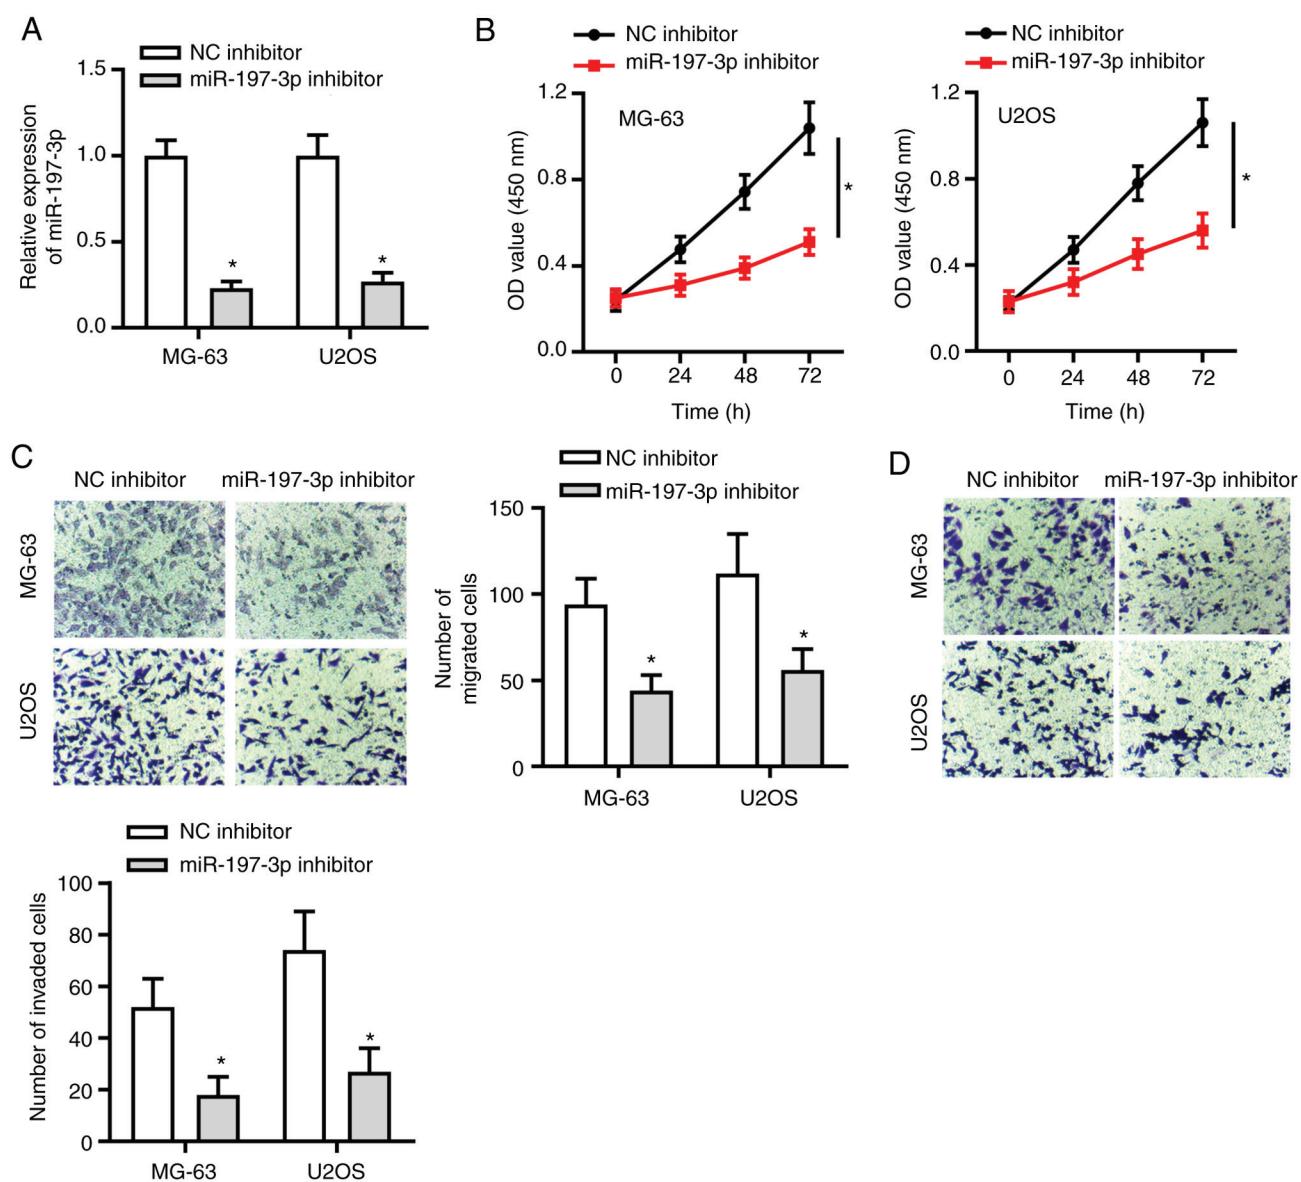

Table SI. Primer sequences used for RT-qPCR analysis.

Name	Sequence (5'-3')
TUSC8 (forward)	CTGCGGAGGTATGTCTAATTG
