

Figure S1. Alterations in the long and short tumor diameter from day 12 to day 33. ^{***}P<0.001 vs. NC-long diameter; ^{###}P<0.001 vs. NC-short diameter. NC, negative control; si, small interfering RNA.

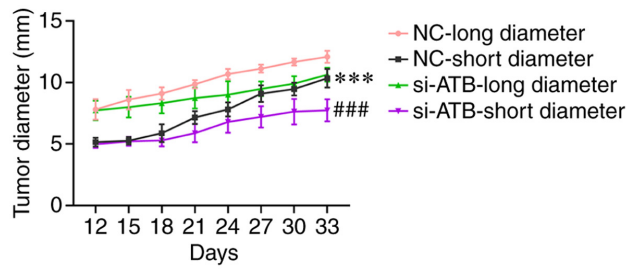

Figure S2. Transfection efficiency of miR-141-3p mimics in HCT116 cells. ***P<0.001 vs. mimics NC. miR, microRNA; NC, negative control.
