

Figure S1. mRNA and protein expression of TGF β R2 in cancer cells upon TGF β R2 overexpression. oe-NC and oe-TGF β R2 were respectively transfected into Eca-109 cells. (A) TGF β R2 mRNA expression in each group was detected by RT-qPCR; (B) TGF β R2 protein expression in each group was assessed by western blot analysis. *P<0.05, compared to oe-NC.
