

Figure S1. Physiological indicators of rats. (A) Green tea reduces blood glucose levels in diabetic rats. (B) Changes in the body weight of rats in each group. (C) Trajectory map of rats in a water maze test. NC, negative control; DM, diabetes model.

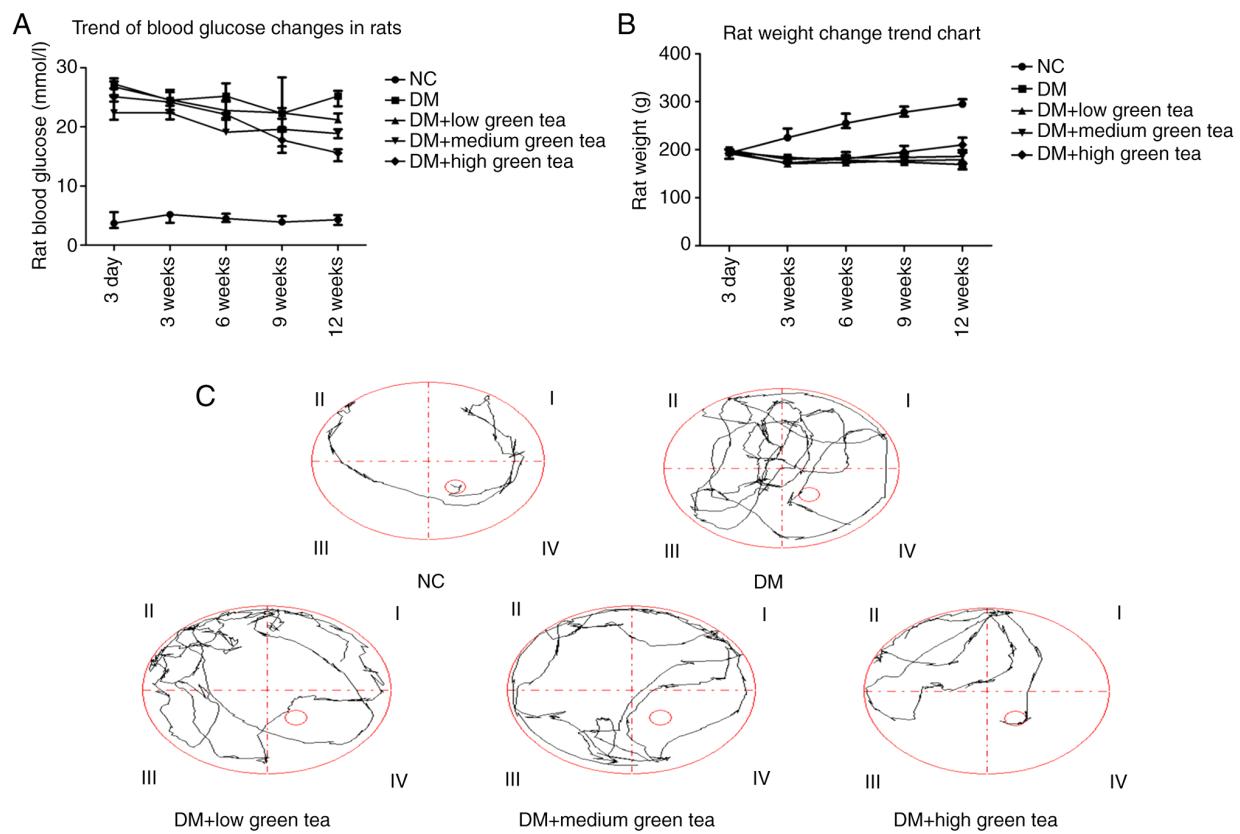

Figure S2. Apoptosis rate of hippocampal neurons in rats.
Apoptosis in the hippocampal CA1 area in rats in each group.
Each data point represents the mean \pm standard deviation.
