

Figure S1. Transfection efficiency for si-p65 and pcDNA3.1-I κ B α in PMVECs. (A) Western blots of p65 protein expression in con-siRNA and p65siRNA transfected cells. (B) Western blots of p-I κ B α protein expression in pcDNA3.1-I κ B α -wt and pcDNA3.1-I κ B α -M transfected cells. Each value represents the mean \pm SD of three independent experiments. **P<0.05 vs. the control group. PMVEC, pulmonary microvascular endothelial cells; p, phosphorylated; si/siRNA; small interfering RNA; wt, wild-type; M, mutant; con, control.
