

Figure S1. Effects of the essential oils on tyrosinase activity. Data are expressed as the mean \pm SD. * $P < 0.05$, significant difference compared to the control.

Figure S2. Translational levels of melanogenesis-related genes in B16F10 cells treated with the various essential oils. The second and third replicates of the western blots are shown. MITF, microphthalmia-associated transcription factor; TRP, tyrosinase related protein.
