

Table SI. Confidence level and margin of error of clinical response, R0 resection and pathological response rates.

Parameter	SOX, % (confidence level)	Apatinib + SOX, % (confidence level)	Group difference, % (confidence level)	Margin of error (%)
ORR	37.1 (21.1-53.2)	64.0 (45.2-82.8)	26.9 (1.2-52.5)	25.6
DCR	88.6 (78.0-99.1)	96.0 (88.3-103.7)	7.4 (-6.8-21.6)	14.2
R0 resection	90.9 (81.1-100.7)	95.8 (87.8-103.8)	4.9 (-8.5-18.4)	13.4
Pathological response grade 3	9.1 (-0.7-18.9)	16.7 (1.8-31.6)	7.6 (-9.7-24.8)	17.3

SOX, S-1 plus oxaliplatin; ORR, objective response rate; DCR, disease control rate.
