

Figure S1. Transfection efficiency of miR 221 and miR-222 is measured via reverse transcription-quantitative PCR in (A) MCF-7 and (B) MDA-231 cells. **P<0.01 and ***P<0.001. Anti-miR-CTL, anti-miR 221/222 negative control; miR, microRNA; SCR, scrambled.

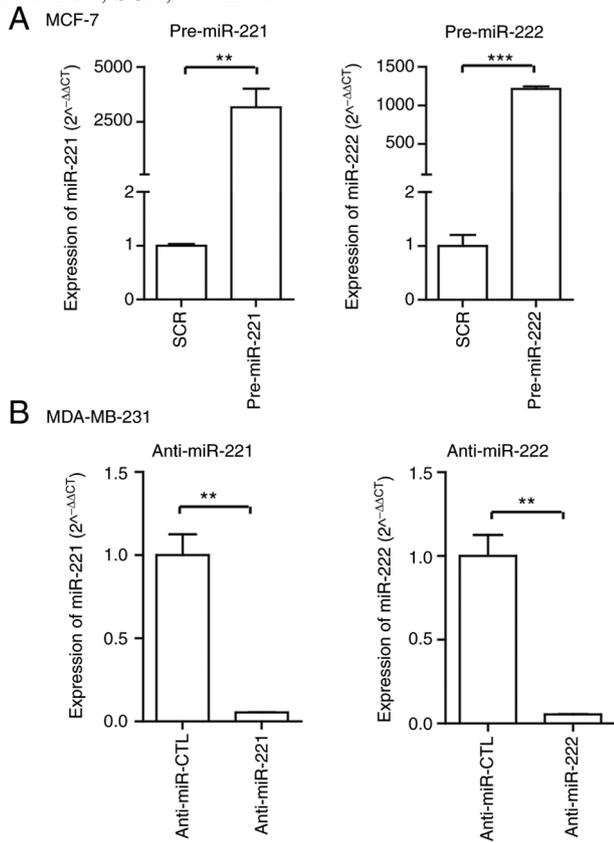

Figure S2. Analysis of ANXA3 expression following transfection with ANXA3 overexpressing and control vectors in MCF-7 cells. ANXA3, annexin A3; oe, overexpression.
