

Figure S1. Representative images of migration of (A) U937 and (B) THP-1 cells in the presence of celastrol. Representative images of cell migration of (C) U937 and (D) THP-1 cells in the presence of 1  $\mu\text{g/ml}$  B19V NS1 and different concentrations of celastrol. Scale bar, 20  $\mu\text{m}$ . B19V, human parvovirus B19; NS1, non-structural protein 1.

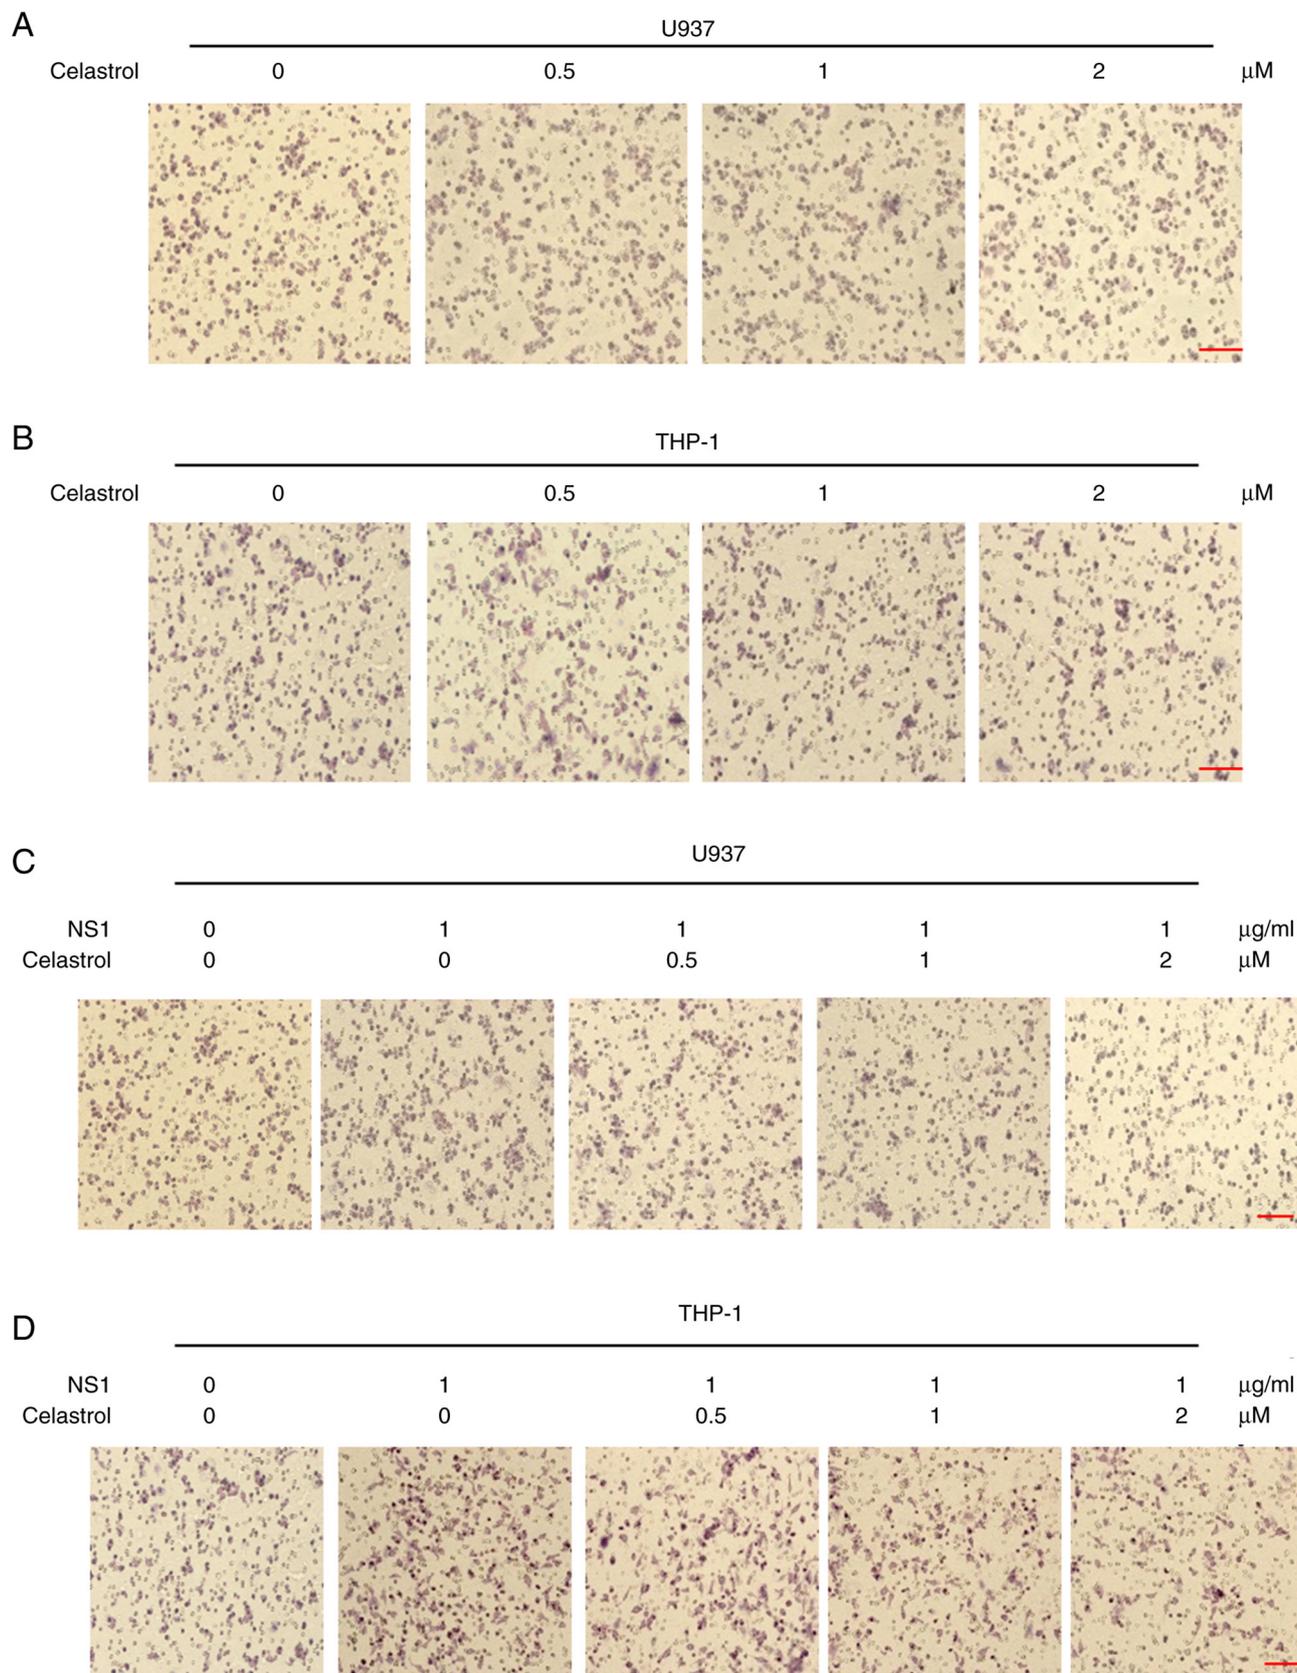

Figure S2. Representative images of phagocytosis of (A) U937 and (B) THP-1 cells in the presence of celastrol. Representative images of phagocytosis (arrows) of (C) U937 and (D) THP-1 cells in the presence of 1  $\mu\text{g/ml}$  B19V NS1 and different concentrations of celastrol. Scare bar, 20  $\mu\text{m}$ . B19V, human parvovirus B19; NS1, non-structural protein 1.
