

Figure S1. Lentivirus infection of PANC-1 cells. (A) Verification of EIF2AK2 lentivirus infection under fluorescence microscopy (magnification, x100 and x200). (B) Reverse transcription-quantitative PCR validation of EIF2AK2 lentivirus infection. **P<0.01 vs. Control and NC. EIF2AK2, eukaryotic translation initiation factor 2 α kinase 2; sh, short hairpin; NC, negative control; sh-EIF2AK2-396 (Shanghai GeneChem Co., Ltd. cat. no. 115396-2); sh-EIF2AK2-397 (Shanghai GeneChem Co., Ltd. cat. no. 115397-1); sh-EIF2AK2-398 (Shanghai GeneChem Co., Ltd. cat. no. 115398-1).
