

Figure S1. Expression levels of CBX2 in SVG p12, U251 and HS683 cells. **P<0.01. CBX2, chromobox 2; miR, microRNA.

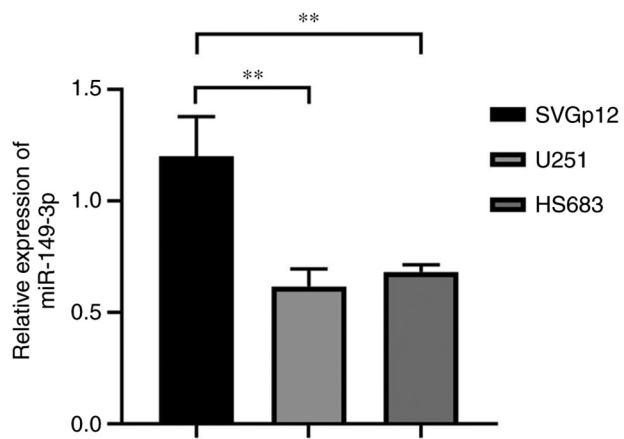

Figure S2. CBX2 3'-UTR-WT and CBX2 3'-UTR-MT activity was measured using a dual-luciferase reporter assay after transfection with miR-149-3p inhibitors in U251 cells. **P<0.01. UTR, untranslated region; WT, wild type; MT, mutant type; ns, not significant; miR, microRNA.
