

Figure S1. Sensitivity analysis of the hazard ratio for progression-free survival. Coef., coefficient.

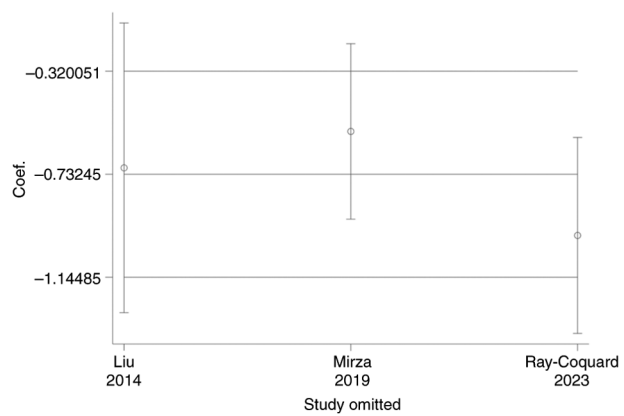

Figure S2. Sensitivity analysis of the objective response rate of combination therapy. Coef., coefficient.

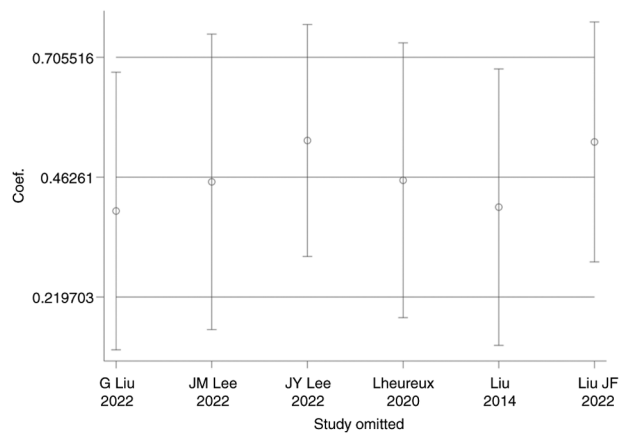

Figure S3. Sensitivity analysis of the disease control rate of combination therapy. Coef., coefficient.

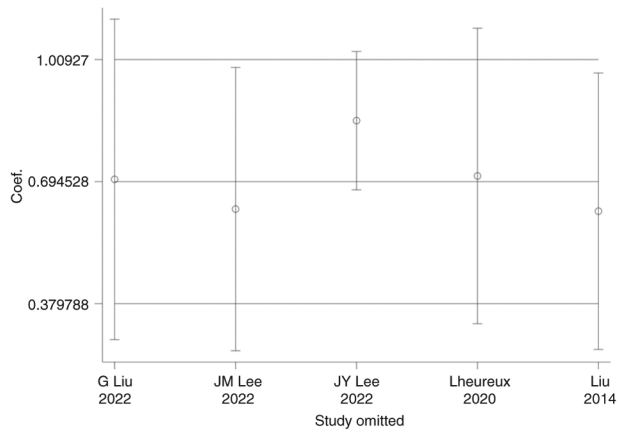

Figure S4. Sensitivity analysis of median progression-free survival. FS. Coef., coefficient.

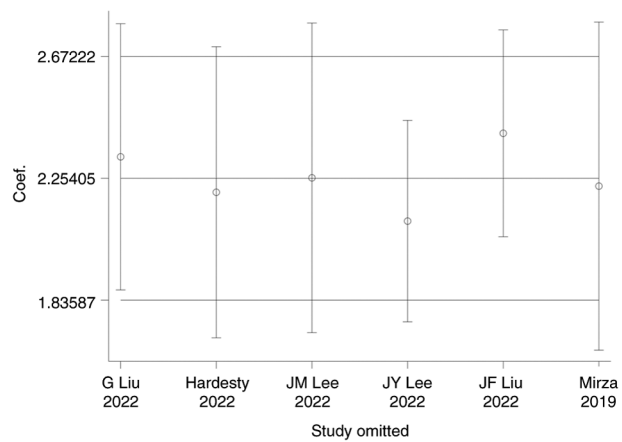

Figure S5. Sensitivity analysis of the incidence of adverse events. Coef., coefficient.
