Figure S1. Kaplan-Meier survival curves for 20 lncRNAs from left colon cancer that were associated with overall survival. Horizontal axis, overall survival time (years); vertical axis, survival function. lncRNAs, long non-coding RNAs.
Figure S2. Kaplan-Meier survival curves for 25 IncRNAs from right colon cancer that were associated with overall survival. Horizontal axis, overall survival time (years); vertical axis, survival function. IncRNAs, long non-coding RNAs.
