

Figure S1. Correlation plots for serum miR-130a vs. serum HOTAIR, TGF- β 1, SIRT1 and E-cadherin. miR, microRNA; HOTAIR, HOX transcript antisense intergenic RNA; TGF- β 1, transforming growth factor- β 1; SIRT1, sirtuin 1.

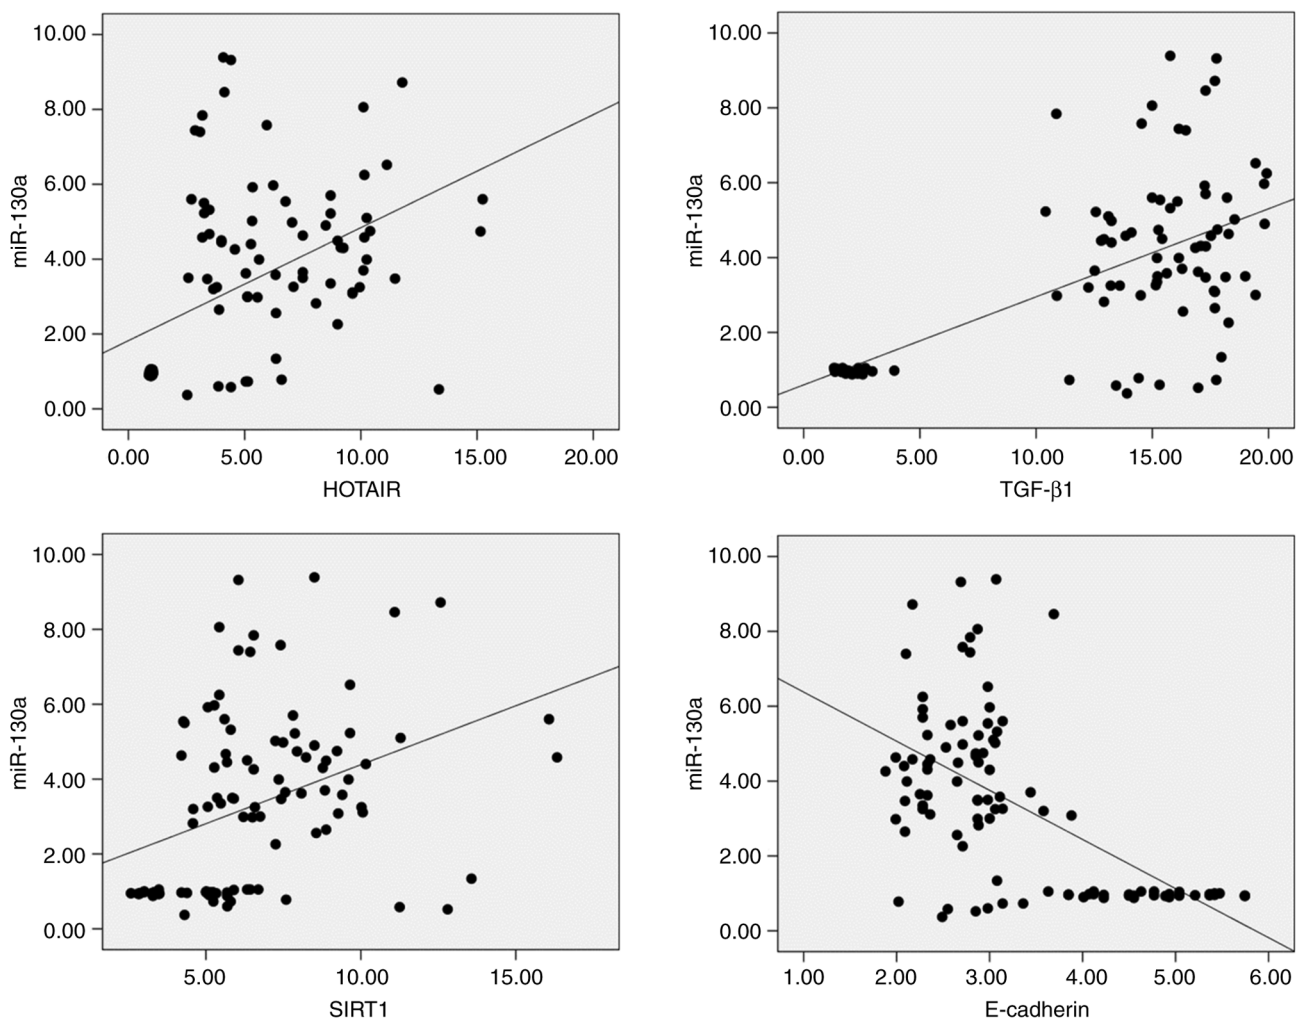

Figure S2. Correlation plots for serum HOTAIR vs. serum TGF- β 1, SIRT1 and E-cadherin. HOTAIR, HOX transcript antisense intergenic RNA; TGF- β 1, transforming growth factor- β 1; SIRT1, sirtuin 1.

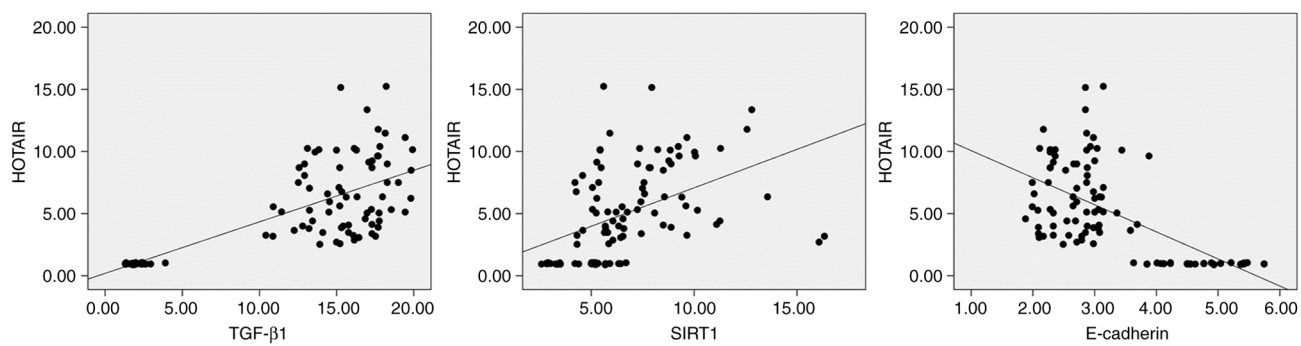

Figure S3. Correlations among serum TGF- β 1, SIRT1 and E-cadherin levels. TGF- β 1, transforming growth factor- β 1; SIRT1, sirtuin 1.
