

Table SI. Comparison of receiver operating characteristic curves of eosinophil percentage, eosinophil count and Logit(P) with the monocyte count.

Parameters	Difference between areas	Standard error	95% Confidence interval	P-value
Eosinophil percentage vs. monocyte count	0.086	0.039	0.009-0.162	0.028
Eosinophil count vs. monocyte count	0.092	0.037	0.020-0.163	0.012
Logit(P) vs. monocyte count	0.118	0.029	0.061-0.176	<0.001
