Figure S1. Immunohistochemical staining of PD-L1 and BRAF V600E. (A) PD-L1 positive control, x40 magnification. (B) PD-L1 positive control, x10 magnification. (C) Representative case showing PD-L1-positive membranous staining. Magnification, x40. (D) Representative case showing PD-L1-positive membranous staining, x10 magnification. (E) BRAF V600E positive control, x40 magnification. (F) BRAF V600E positive control, x10 magnification. (G) Representative case showing BRAF V600E-positive cytoplasmic staining, x40 magnification. (H) Representative case showing BRAF V600E-positive cytoplasmic staining, x10 magnification. PD-L1, programmed death ligand 1.
