

Figure S1. Effects of LINC00707 on the cell cycle distribution as determined by flow cytometry. LINC00707, long intergenic non-protein coding RNA 70; PI, propidium iodide.

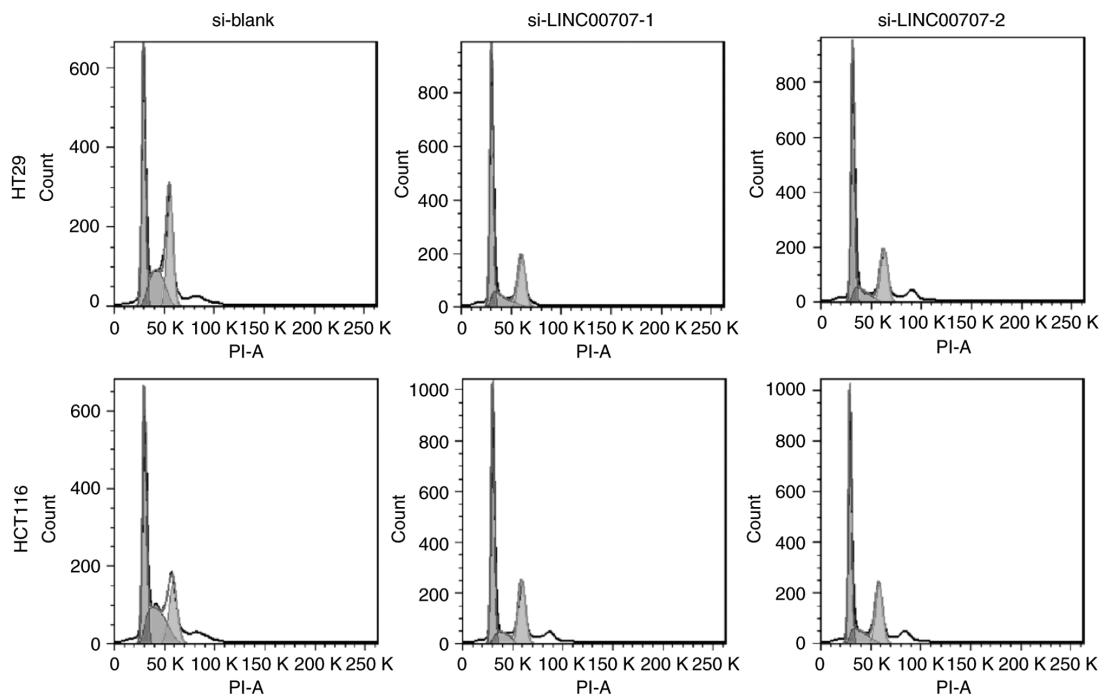

Figure S2. Potential microRNAs binding to LINC00707 as predicted by the starBase and RegRNA databases. LINC00707, long intergenic non-protein coding RNA 70; miR, microRNA.

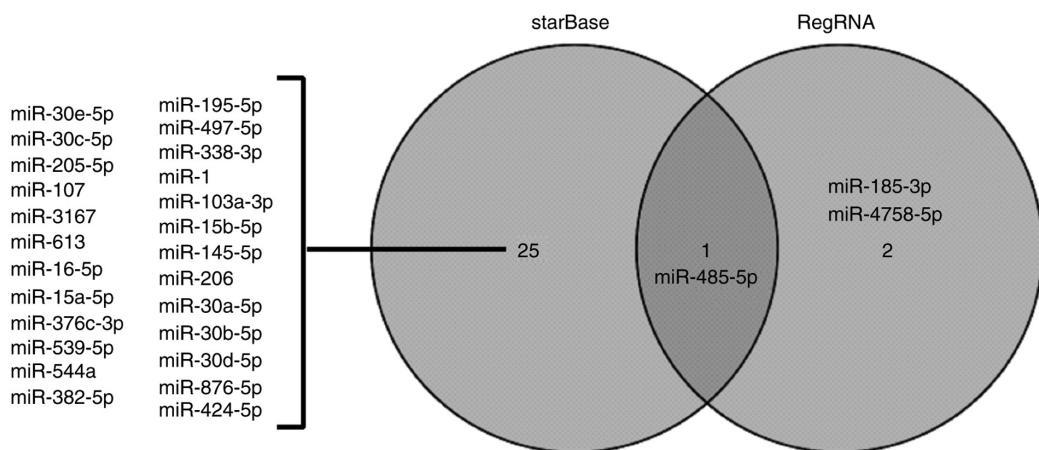

Figure S3. Verification of the effect of (A) overexpression and (B) inhibition of miR-485-5p in HT29 and HCT116 cells; miR, microRNA; NC, negative control.

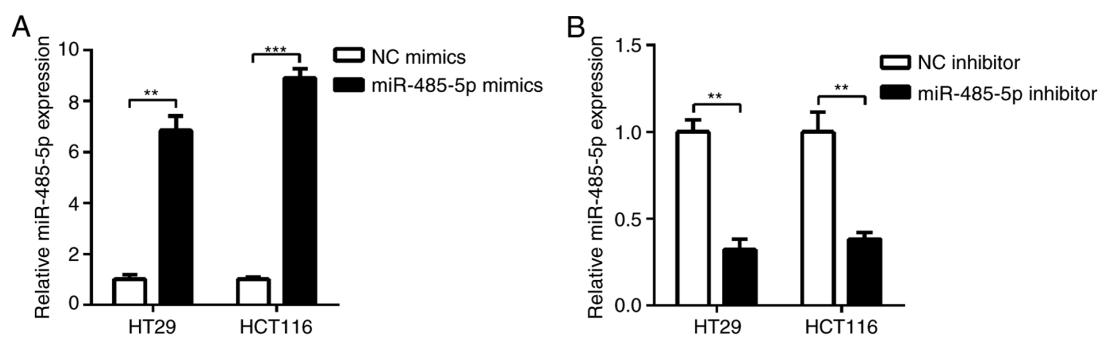

Table SI. Gene and siRNA sequences.
